

NEXCLAD 16

SMALL MODULE WALL CLADDING

NeXclad 16 is a single-skin, small module terracotta cladding system that is available in a variety of surface textures and boundless color possibilities. NeXclad 16 can be installed directly to wall sheathing or in a rainscreen application. Available with a variety of corner options – with exact field tile color matching for a harmonious finish.

This small module terracotta tile's ease of installation provides an economical cladding solution – while preserving the integrity of the building's design aesthetic.
