COLORS OF LUDOWICI

LUDOWICI®

With over 50 designer colors and the ability to custom match nearly any hue, the color possibilities are endless. Our color glazes are kiln fired at extreme temperatures during production, fusing the color into the tile and ensuring that the original tones and hues are retained for generations.

IMPRESSIONIST SERIES BLENDS

The Impressionist Series utilizes two or three complementary shades applied randomly over a base color to create the patina of a century old roof. Standard blends can be selected or custom blends can be created using different percentages of Impressionist Series colors. The Impressionist Series colors are available on all barrel, interlocking and shingle tiles excluding French.
