SEVILLE HISTORIC TILE

LUDOWICI®

For over 130 years, Ludowici has crafted hundreds of unique terra cotta roof tile profiles and trim parts, ranging from heavily ornate Victorian-era designs to the simpler lines of the second industrial revolution. As architectural styles and tastes have evolved, so has Ludowici's product line. Although some products are no longer standard, Ludowici has a vast library of historic patterns and designs that can still be reproduced today.

Using historic catalogs, drawings, and technical guides dating back to the 1800s, our technical department can identify replacement parts for your historic roof. In addition to replicating our own historic tile profiles and trim, Ludowici can also match tiles from other manufacturers who have long since closed.
