**LUDOWICI FLOORING COLLECTION**

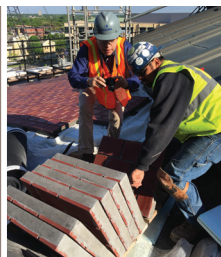

## QUARRY TILE FLOORING

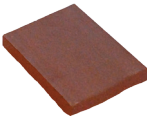

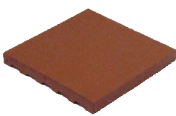

Ludowici is proud to offer high traffic, institutional grade terra cotta floor tiles. Ludowici quarry tiles are featured in such notable locations as the White House, Top of the Rock at Rockefeller Center and the Ellis Island Welcome Center. These tiles are ASTM Grade 1 making them suitable for interior or exterior installation.

Made from the same clay and firing techniques as Ludowici's roofing and cladding products, our quarry tile is backed with the full Ludowici 75-year material warranty. Quarry tiles are available in smooth or non-skid surfaces and in standard and custom matte colors, mists and blends offered by Ludowici.\*

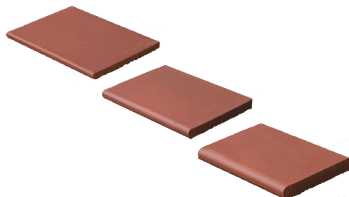

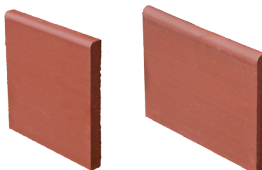

In this unique installation, Ludowici Promenade quarry tiles were set into larger cement pavers and installed in a floating grid system on the roof of the Minnesota State Capitol.
